## Simply delicious.

Discriminating buyers savor the unmistakable rich flavor of MacFarlane Pheasants.

For over 80 years, our family-owned and operated farm has delivered unmatched quality, flavor and consistency.

With no more than 3% retained water from initial processing, we deliver pure flavor — no injected water or flavor enhancers. Our feed is made up of natural grains — no antibiotics, growth hormones or animal by-products.

So, what's it all mean? More meat with superb flavor: Our White pheasants carry 1 – 2 more ounces of breast meat than common Ringneck pheasants. And, they're lower in total fat, saturated fat, and cholesterol compared with chicken, domestic turkey or lean beef. MacFarlane Pheasants will bring elegant textural dimension to your menu with just the exquisite flavor nature intended.
